## SEOS WINS EXPORTER OF THE YEAR

SEOS was last night unveiled as The Exporter of the Year at the prestigious National Business Awards ceremony, held at the Le Meridian Grosvenor House Hotel on Park Lane, London.

The UK's National Business Awards programme was launched two years ago. More than 1900 entries were received for this year's event, which recognises and rewards commercial success, innovation and ethics in the UK business community.

Category finalists go through stringent entry and judging stages. All entrants are required to submit a detailed entry and short listed organisations are required to make a presentation to and answer questions from a panel of independent judges.

David Train, International Trade Director of UK Trade & Investment said, "UK Trade & Investment is committed to supporting UK companies engaged in international business, and delighted to sponsor this year's 'Exporter Of The Year' Award. We extend our congratulations to all of the companies that entered the awards, in particular to SEOS for their outstanding achievement in this field."

Stephen Elmer, Organisation Director and Co-Founder of SEOS, who collected the award on behalf of the company, said, "I am delighted SEOS has been recognised in this way. Export is, and will continue to be, an important part of our business and it is a testament to every one of my colleagues that we have won this award."

### ABOUT SEOS

SEOS is a leading global supplier of display and immersive solutions for simulation and visualization, delivering advanced solutions for the civil and military, training and research, visualization, leisure and entertainment markets.

SEOS has established a worldwide reputation for supplying innovative, high quality, cost-effective display solutions combined with a high level of expertise and exceptional service. A comprehensive range of services and unequalled design system integration capability provide a display solution that is custom designed and built for its application.
