SEOS ACHIEVES INVESTORS IN PEOPLE RECOGNITION

Burgess Hill based SEOS has achieved the coveted Investors in People standard.

Investors in People is the national Standard which sets a level of good practice for the training and development of people to achieve business goals. This internationally recognised Standard enables organisations to maximise their success by developing the potential of their people.

Founded in 1984, SEOS employs over 150 people, both in the UK and in the USA, and has developed a world-class team of dedicated, high calibre people whose innovative ideas create bespoke products and solutions for its ever increasing market.

Fanny Bradbury, Personnel Manager, SEOS, commented, "Now in its 20th year of trading, SEOS has respected the principles of Investors in People for many years and I am delighted that our achievement has been formally recognised. Our people and their development are extremely important to us and key to the company's future."

ABOUT SEOS

SEOS is a leading global supplier of display and immersive solutions for simulation and visualization, delivering advanced solutions for the civil and military, training and research, visualization, leisure and entertainment markets.

SEOS has established a worldwide reputation for supplying innovative, high quality, cost-effective display solutions combined with a high level of expertise and exceptional service. A comprehensive range of services and unequalled design system integration capability provide a display solution that is custom designed and built for its application.
