SEOS TO GROW SALES OF HEAD MOUNTED DISPLAY THROUGH EST

SEOS is pleased to announce that Engineering Systems Technologies (EST) has become a reseller of its HMD 120/40 Head Mounted Display.

The HMD 120/40 uses the latest reflective LCD technology along with innovative optics to create a visually immersive experience for the user.

EST is one of Europe's leading distributors of Virtual Reality, Augmented Reality and Visual Simulation hardware and software. Based in Kaiserslautern, Germany, EST has over 10 years experience in the industry, with a vast knowledge base and proven levels of customer service.

André Thoma, Managing Director, EST commented, "With its 120° field of view and its ergonomically sophisticated design, the HMD 120/40 is unique on the market. It is the perfect product for our customers, who want a real high level of immersion".

David Lewis, Market Development Manager, SEOS explained, "The HMD 120/40 is a product with an unrivalled combination of field of view, light weight and balance and requires a reseller with high levels of expertise. We see EST as a valued route to market and look forward to developing a mutually beneficial partnership".

ABOUT SEOS

SEOS is a leading global supplier of display and immersive solutions for simulation and visualization, delivering advanced solutions for the civil and military, training and research, visualization, leisure and entertainment markets.

SEOS has established a worldwide reputation for supplying innovative, high quality, cost-effective display solutions combined with a high level of expertise and exceptional service. A comprehensive range of services and unequalled design system integration capability provide a display solution that is custom designed and built for its application.
